IN THE CLAIMS:

Claim 1. (currently amended) A method for electronically generating, storing, and retrieving airline ticket agency coupon data, comprising the steps of:

generating agent coupon data simultaneously with the printing of an airline ticket;
transmitting and storing said agent coupon data electronically to and in data storage apparatus;
providing each agent coupon data with an identifier;
storing said agent coupon data in a director/directory/image file arrangement; and
retrieving said electronically stored agent coupon data and printing the same in a format of an agent coupon.
